omething of a place in the future. are advices inform us that upwards of

ar weekly meeting of Enterprise Lodge, No. 22, I. O. G. T., the followsuing term, commencing May 1, 1868:

next a slave—such has come to be a normal condition of Mr. John Wesers in his eyes to Mr. Faris, the failor, ing whisky as he could sick. John Wesley sighed and walked away.

one of the most beautiful of all. The distinction characteristic of this type is that of a bilateral structure. The organs begin to show a double organism.

the Molluska that of organs in pairs. The Molluska are those that we find in shells; all of the Molluska however do not have shells, nor indeed are all shelled animais Molluska. Rodiste shells are merely lime deposits between the arms, the Mollusk shells are however houses proper. The Acephala is the first class of the Mollusks—those the first class of the Mollusks—those the first class of the Mollusks—those that nave no head—such as the oyster.

Our species of the Bryozoa is very peculisr, in shape like a rose with an arm fastened low down on the body, with a head like a bird with a bill.

This, bill continually keeps snapping as is for prey, but the arm is so short that nothing caught could be carried to the mouth. It is surmised that this promises to be a complete success.

to the mouth. It is surmised that this is an arrangement to hold some object as a bait to decoy infusoria within the reach of the mouth.

Shells are not made up of one simple material like plaster. The oyster shell is made of three parts. The shell is composed of columns and the columns made of plates, and the plates all arranged at different angles. The method of the growth is by means of a skin on the outside which deposits the material. The shell is also filled with viens of circulation, through which the fluids of the animal circulate. The second layer, the nacreous layer, is composed of innumeral layers outlapping like shingles, each layer giving a different color.

When sometimes the oyster gets some foreign substances in its gills as a grain of sand, being unable to remove it, it proceeds to cover it with this nacreous layer and by coating it many times it becomes a small globe and constitutes our common Pearl.

The Acephala has a stomach, intertimes, a heart and eyes.

The Gosteropods—including the sandless and arranged at different color.

When gometimes the oyster gets agrain of sand, being unable to remove it, it proceeds to cover it with this nacreous layer and by coating it many times it becomes a small globe and constitutes our common Pearl.

The Acephala has a stomach, intertimes, a heart and eyes.

Organs for EveryBody.—Mason & Hamlin, Estey, Tayler and a variety of second hand Organs are for

The Acephala has a stomach, intertines, a heart and eyes.

The Gosteropods—including the smalls, &c.

The snail has a tongue covered with thousands of treth—the throat and stomach are also covered with teeth in countless numbers. The stomach of the gosteropod answers the same purpose as the gizzard of the bird. Gosteropods have two ways of breathing—either breathing air directly, or gaining oxygen from watar. Eye stones are merely the little trap door with which the gosteropod shats up his house.

The chepidopods are distinguished by having a distinct head, and having its feet or arms around its head.

It is quite impossible to give any adequate description of the multitude of equate description of the equate description of

POLICE COURT.-Yesterday morning quite a number of our best and mos influential citizens put in their appearance before Judge Good, and all came off victors, or virtually victors in the race. They had all been violating the ordi-nance framed to prevent the obstruc-tion of the streets and sidewalks, but owing to the looseness with which the charges in each case were drawn, the legal talent of the city which had been employed succeeded in getting them

clear.

The first case was that of Mr. W. M.
Nichol, dealer in notions, who was
charged with having boxes piled up on
the sidewalk in front of his store,
thereby obstructing the passage. The
evidence unfortunately proved that the
boxes were not on the sidewalk, but on
the street. Therefore Mr. Nichol was
adjudged not guilty of the offense as
charged and the case dismissed.

Messrs. Thomas & Sturgeon, dry
goods merchants, came next in order.
These gentlemen were not quite so fortunate as Mr. Nichol. It was testified
that while the greater portion of their
boxes were in the street, a few inches
rested upon the curb stone. No skilliul lawyer handled this case, and therefore a fine of one dollar and costs was
imposed. The fine was, however, subsequently remitted. LIQUORS FOR MEDICAL USE.

imposed. The line was, however, subsequently remitted.

The third party was Mr. Jas. C. Orr, carpet dealer; the case against whom was also dismissed, because the particular box which it was claimed obstructed the sidewalk in front of his store, did not lie on the sidewalk but outside of the gutter. There was another box containing a roll of oil cloth standing on the payement as a sign, but standing on the pavement as a sign, but as that didn't take up much room, it didn't matter. Then came the trial of Eisman & Ar-

nold, dealers in ready made clothing. These gentlemen had complied with a otice to remove boxes from the side

noid, dealers in ready made clothing. These gentlemen had compiled with a notice to remove boxes from the sidewalk in front of their store, by pilling them outside of the gutter. The charge of obstructing the sidewalk could not therefore be sustained, and the case was dismissed.

The last and most interesting of these cases was that of the city of Wheeling against Dr. E. A. Hildreth, for obstructing the sidewalk, on Monroe street, between Fourth and Fifth streets. It appeared that the Dr. is putting up a new building in the locality mentioned, and desiring to build an area wall has excavated some three or four feet into the sidewalk. This it was contended by the counsel for the city, G. W. J. flers, Esq., brought him clearly within the provisions of the ordinance made and provided. It was also shown that the Dr. had consulted Street Commissioner Clark before making the excavation, and had been informed by that gentleman that he knew of no objections to his making the excavation. But the Mayor of the city in regard to the matter, and had been informed by that gentleman that he knew of no objections to his making the excavation. Sut the Mayor of the city in regard to the matter under consideration. The exact scope or purport of the conversation be did not recollect, but did not consider the Mayor entitled to authorize any citizen to dig into the sidewalk. The only proper authorization could come from the Council; and as the Doctor had aiready filed his petition to Council for authority, he would advise in that the case be continued until it could be seen what course Council would pursue in allowing citizens to make excavations in the sidewalk for building purposes.

The Court stated that under the peculiar circumstances of the case and the first of the court of the court

Hydraulic Cement.

100 BBIS. HUDSON RIVER CEMENT, the second day as the first.

A LARGE supply of brackers, of new and beautiful designs, will be found at Partridge's Gallery, on Main street; also, a splendid assortment of looking glasses, sold at cost. Call and examine these goods before making your purchases.

Twelve years ago, White Pine Compound was first introduced to the public. It has daily grown in favor since then, until at the present time there is hardly a family who has not tested it for Colds, Pulmonary, Complaints and Kidney Affections. Large numbers of physicians use it in their daily practice.

Its good effects are permanent. In this it differs from all hair dyes. By its use inxurient growth is guaranteed, natural color and gloss are restored. One trial will cause you to say this of Mrs. S. A. Allen's Improved (new style) Hair Restorer or Dressing, (in one bottle.) Every Druggist sells it. Price One Dollar. eod

Sight Restored,—A ladv in Belmont county, Ohio, writes to Oxtoby & Duffield, Jewelers, 103 Main street: "I have worn glasses for more than forty years, but have never looked through a better spectacle than the pair purchased at your store. I believe they have entirely restored my sight, as I can see as well as I could when ten years of age." Complete stock of spectacles, eye-glasses, goggles, watches, clocks, Jewelry and fancy goods always in store at "103."

IT ALWAYS GIVES SATISFACTION. This is the testimony of all who have ever used Bocking's Unrivalled Baking Powder. All the hotels and boarding houses, and best families in the city invariably use it. Manufactured by E. Bocking, No. 1 Odd Fellow's Hall. Sold by Bocking & Miller, corner First and Chapline streets, and grocers gener-

burgh.

Address me through the Post-office, or call at my establishment, head of Lindsey street. All orders will be attended to promptly. apr7-3m

SEWING MACHINES FOR RENT.—
Wheeler & Wilson's Sewing Machines rented by the week or month. By renting and applying the rent to the purchase, everyone can become the owner of a first-class Sewing Machine. Call and examine at Wm. Sumner & Co.'s, No. 99 Main street.

ADVICE THAT SHOULD BE HEEDED .- We best remedy extant for the malical cure of nervous and sick headache, billious disorders and all affections of the Liver and Blood. They are, as their name indicates, a Blood Pill; they search the blood for disease and sirke at the very root, thereby affecting not temporary but permanent cures. As a puring rulid and saie in their operation and unquestionably one of our most satisfactory Catharite Pills, and should be kept in every household, and, when taken in conjunction with Roback's Blood Purifier, are unequaled for caring Scrofula, Skin Disease, Old Sores, Sait Rheum, Dyspepsua, Eryspielas, Tumors, Eruptions, and all diseases arising from a disordered state of the blood or a disorganized state of the system. Try these medicines and you will never regret it. Ask those who have used them, and they will tell you they are the best of medicines. Sold by all druggists everywhere.

GREAT NEW ENGLAND WHEELING

White Pine Compound Is NOW OFFERED TO THE AFFLICTED throughout the country, after having been proved by the test of eleven years, in the New England States, where its merits have become as well known as the tree from which, in part, it derives its virtues.

The White Pine Compound.

compound was originated. A member of my family was sflicted with an irritation of the inrot attended with a disagreeable cough. I had for some months previous thought that a preparation having for its basis the inside bark of white pine might be to compounded as to be very useful in diseases of the throat and lungs. To test the value of it in the case alluded to, I compounded a small quantily of the medicine that I had been planning, and gave it in teaspoonful doses. The result was exceedingly gratifying. Within two days the irritation of the throat was removed, the cough subsided and a speedy cure was effected. Soon after this, I sent some to a lady in Londonderry, N. H., who had been suffering for some weeks from a bed congained and the construction of the day of the construction of the constr

in is nature; is warming to the stomach and pleasant withal to the taste, and is exceedingly cheap.

"As a remedy for kidney complaints the White Pine Compound sands unrivaied. It was not originated for that purpose, but a person in using it for a cough was not only cured of the cough, but was also cured of a kidney difficulty of ten years standing. Since that accidental discovery many thousands have used it for the same complaint, and have been completely cured.

The above was written by Dr. Poland, in 1899. Since then, as in Manchester, the White Compound has taken the lead of all Cough remedies, as well as a preparation for the cure of Kidney difficulties, in every city, town, vi lage and hamlet throughout the New England States.

The remedy is as sufe and pleasant to take as it is effectual.

The White Pine Compound. PREPARED AT THE New England Botanical Depot, neston, Under the Supervision of Rev. J. W. Poland

DB. JOHNSON.

Member of the Royal College of Surgeons. BLANK BOOK

DR. JOHNSON,
Member of the Royal College of Surgeons,
London, Gradnate of one of the most eminent Colleges in the Med States, and the
greater part of whose little been spent in
the hospitals of London, Paris, Philadelphia
and elsewhere, has effected one of the most
astonishing cures that week many troubled with ringing in the head and
ears when asleep, great nervouses, being
alarmed at sudden sounds, bashtuless, with
frequent blushing, attended sometimes with
derangement of mind, were cured immedistely. TAKE PARTICULAR NOTICE

TAKE PARTICULAR NOTICE.

Dr. J. addresses all those who have injured themselves by improper indulgence and solitary habits, which ruin both body and mind unfitting them for either business, study, society or marriage.

Those are some of the sad and melancholy effects produced by early habits of youth, viz: Weakness of the Back and Limbs, Pains in the Head, Dimness of Sight, Loss of Muscular Power, Palpitation of the Heart, Dyspepsia, Nervous Irritability, Derangement of the Digestive Functions, General Debility, Symptoms of Consumption, &c.

MENTALLY, "The fearful effects on the mind are much to be dreaded. Loss of Memory, Confusion of Ideas, Depression of Spirits, Evil Forebodings, Aversion to Society, Self-Distrust, Love of Solitude, Timidity, &c., are some of the evils produced.

Thousands of persons of all ages can now judge what is the cause of their declining health, losing their vigor, becoming weak, pale, nervous and emaciated, having a singular appearance about the eyes, Cough, and Symptoms of Consumption.

Who have injured themselves by a certain practice, indulged in when alone, a habit frequently learned from evil companions, or as school, the effects of which are nightly felt, even when asleep, and, if not cured, render marriage impossible, and destroys both mid and body, should apply immediately. What a pity that a young man, the hope of his country, the pride of his parents, should be snatched from all prospects and enjoyments of life by the consequence of deviating from the path of nature, and indulging in a certain secret habit. Such persons must, before contemplating MARRIAGE.

MARRIAGE,
reflect that a sound mind and body are the
most necessary requisites to promote connubial happiness. Indeed; without these the
journey through life becomes a weary pilgrimage; the prospect hourly darkens to the
view, the mind becomes shadowed with despair and filled with the melancholy reflection that the happiness of another becomes
blighted with our own.
UNECASES OF IMPRUDENCE. DISEASES OF IMPRUDENCE. When the misguided and imprudent votary of pleasure finds that he has imbied the seeds of this painful disease it too often happens that an ill-timed sense of shame or dread of discovery deters him from applyin to those, who from education and respectability, can alone befriend him, delaying it he constitutional symptoms of this horrie bility, can alone befriend him, delaying the constitutional symptoms of this hori disease make their appearance, such as die rated sore throat, diessed nose, nocture pains in the head and limbs, dimners of sigh deafness, nodes on the half-bones and arm blotches on the head, face and extremitie progressing with frightful rapidity, till seat the paiste of the mouth or the bon of the nose fall in, and the victim of the awful disease becomes a horrid object commiscration, till death puts a period to dreadful sufferings, by [sending him to "th Undiscovered Country from whence i traveller returns." Visiting or Wedding Card,

raveller returns."
It is a MELANCHOLY FACT that the sands fall victims to this terrible disease, owing to the unskillfainess of iguouant pretenders, who, by the use of that DEADLY POISON, MERCURY, ruin the constitution and make the residue of life miserable. SKIN DISEASES SPEEDILY CURED.

PETROLEO-CALCIUM GAS. PETROLEO-CALCIUM GAS.

ONE OF THE MOST VALUABLE IMprovements of the age is the process of
mannacturing gas by the Petroleo-Calcium
Gas Company, of Wheeling, West Va., upon
patents of Dr. J. H. Connelly, from an almost valueless product of Petroleum Oil,
(residums,) in combination with time,
or time and coal, so simple that two
thousand feet of Gas may be made by
any farm hand or stable boy of ordinary intelligence in three hours. It has been
thoroughly tested upou such a scale, at the
McLire House in Wheeling, and at the
country residence of Mr. J. P. Gilchrist, near
the same city, as to fix the certainty of its affording entirely satisfactory results in the
production of small and large quantities of
Gas, and can be with great economy approach
to the safety, simplicity, practicability and great cheapness of
manufacture, but for its superior brilliancy,
soft infinence upon the sight, and freedom
from the sulphurous odors common to Gas
These facts the officers of the company
will take pleasure in demonstrating to those
desiring to adopt or interest themselves in it.
The company will sell rights to manufacture
in Towns, Counties, Districts or States, and
direct attention to the following

WHEELING, W. Va., Aug. 6, 1867.
To the President of the Petroleo-Calcium Gas Co To the President of the Petroleo-Calcium Gai to Sir.—We have thoroughly and carefully investigated the construction and working of the apparatus for manufacturing Gas, according to your company's patents, and the combinations of naterials used, as now working upon the McLure House in this city, and country residence of J. P. Gillerit, Eaq., near this city. For simplicity, durability, economy and safety, we consider it apperior to any other method of manufacturing Gas that we are acquainted with We cheerfully recommend its adoption by all Gas consumers.

Address, PETROLEO-CALCIUM GAS CO., aug7-cowly Wheeling, W. Va
